Video and Photo Consent

Dear Sir/Madam,

As part of our work we take many photographs and use video extensively. They are very effective tools in encouraging people to take part in adventure activities.

Occasionally we are asked to put on displays and exhibitions or provide information about our activities, and good quality photographs and video are an essential part of these displays.

I am writing to ask for your permission to use video and photographs of you taking part in Adventure Activities in future publicity/display and teaching material.

Your identity would not be released to anyone. If you are willing for us to use photographs and videos of you in our work, please complete the attached slip and return it with the Activity Consent Form.

Yours sincerely,

Steve Porter
 Activities Director

PHOTO AND VIDEO CONSENT

I give my permission for photographs and video of me taking part in outdoor adventure to be used in display/teaching and publicity work.
