## Video and Photo Consent

Dear Young person and Parent/ Carer,

As part of our work with young people we take many photographs and use video extensively. They are very effective tools in encouraging young people to take part in adventure activities.

Occasionally we are asked to put on displays and exhibitions or provide information about our activities, and good quality photographs and video are an essential part of these displays.

I am writing to ask for your permission to use video and photographs of You / Your child taking part in Adventure Activities in future publicity/display and teaching material.

Your child's identity would not be released to anyone. If you are willing for us to use photographs and videos of your child in our work, please complete the attached slip and return it with the Activity Consent Form.

Yours sincerely,

Steve Porter  
Director.

---
